

World Congress of Cardiology Scientific Sessions 2010

Beijing, China
June 14 – 22, 2010

WOMEN'S HEART FOUNDATION

Improving survival and quality of life

Dear WHF Medical Advisors: Please join us at this historic congress and contribute to the world dialogue on women and heart disease

About World Congress of Cardiology 2010

The World Heart Federation will hold the World Congress of Cardiology Scientific Sessions in Beijing, China from June 16-19 2010 www.world-heart-federation.org. The World Heart Federation is very grateful for the support of the Chinese Society of Cardiology and the Chinese Medical Association in hosting the WCC Scientific Sessions 2010.

Another exciting development of the WCC Scientific Sessions 2010 is that the **3rd International Conference on Women, Heart Disease and Stroke**

will be incorporated within the scientific programme and this theme will be fully reflected throughout. The mission is to help the global population achieve a longer and better life through prevention and control of heart disease and stroke, with a focus on low and middle-income countries.

Join thousands of cardiologists and other healthcare professionals from all over the world as they gather to share the latest science on treatment and prevention. It is a unique networking opportunity on a unique scale – a truly international scientific programme in a culturally stimulating environment.
